

Building Hope

Eli Land
Through
People

Investing in Eli's Future Leaders

While the fathers are fighting to protect the people and the country, and while we are facing a new challenge — 'The Youth Challenge' — our boys and girls in Eli are very special; they love their land, Israel, and its people. However, they are currently experiencing a period of significant pressure and mental difficulties, which make their day-to-day functioning challenging.

They fear the next terrorist attack in Eli, worry about their fathers not returning from war, or their neighbors not making it back.

**WE ARE HERE
FOR THEM &
WE NEED
PARTNERS**

That's why we are establishing a 'youth center' for them — a place where they can connect, learn, and enjoy time with friends their age.

It's a space where they can take responsibility for themselves, initiate actions, and create new things, such as organizing summer camps for autistic children, providing assistance to the needy, supporting widows, and much more.

We are reaching out to our peaceful friends and partners, inviting you to join us in supporting the next generation of Israeli fighters, leaders, and the leadership of our nation."
