

# RESILIENCE & GROWTH

## The Community of Eli and Its Commitment to Israel's Future

The Community of Eli is the home of more than 5,000 residents including 2,500 children, the "Bnei David" pre-military academy and many IDF career families and is slated to grow to 20,000 over the next 15 years.

Since October 7th, the community has sacrificed 29 IDF Soldiers who were a major part of the community and pre military academy.

Despite the security challenges of the region, the residents of Eli are committed to protect the State of Israel and be a defense for Jerusalem and Tel Aviv.

As Mayor of Eli, Avidan has taken on the challenge of leading this community towards a future of growth and construction, guiding it forward toward success, heroism, and resilience.

### Saving Lives

## The Story of Eli Community

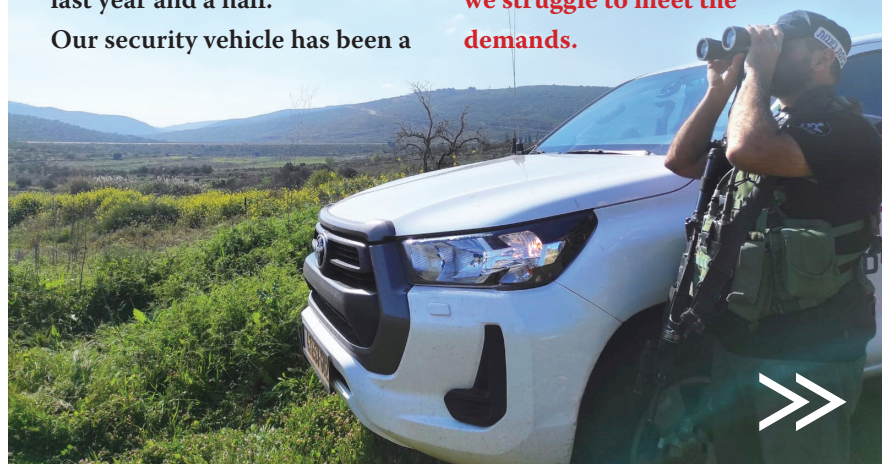

# Protecting Our Home

Nestled in the heart of Judea and Samaria, Eli stands as the capital of the Binyamin region, located along the strategic Route 60. Over the years, this road has been the site of more than 30 attacks, claiming over 15 lives, including 7 in just the last year and a half.

Our security vehicle has been a

lifeline, arriving swiftly at every incident, preventing greater tragedies, and saving lives. Yet, the challenges continue to grow.

**Frequent threats and infiltration attempts jeopardize the safety of our community. With only one security vehicle, we struggle to meet the demands.**

# The **URGENT NEED**

We need a Toyota Hilux - a durable, reliable off-road vehicle  
**TO PROTECT OUR 7,000 RESIDENTS AND TRAVELERS.**  
At a cost of \$90,000 this vehicle will ensure years  
of enhanced security for our community.

**LET'S WIN THIS FIGHT  
TOGETHER!**
