Neve Shir Soccer Field
A Neighborhood of Heroes

Neve Shir is a small neighborhood in the community of Eli, home to 90 young families and nearly 200 children. Ninety-eight percent of the adults serve in the IDF, many in elite and classified units. While they stand on the front lines protecting the people of Israel, their children remain at home, carrying worry, fear, and uncertainty far beyond their years.

For these children, there is one place where the weight eases, even for a moment.
A soccer field.

Today, that field is small, worn down, and neglected, yet it has become the emotional heart of the neighborhood. Since the war began, it has turned into a lifeline. Children run to release fear. Teenagers find strength and belonging. Families gather for friendly matches and community tournaments that restore a sense of normal life when everything else feels unstable.

Neve Shir is located just 700 meters from the nearby village of Luban a Sharqiya and has experienced repeated security threats and attempted infiltrations. Life here demands courage every single day. And still, this community chooses hope, unity, and joy.

We want to build a proper, safe, and dignified soccer field, one that gives children a place to heal, families a place to gather, and a neighborhood a reason to keep moving forward.

The total cost of the project is $100,000.
The community has already committed $50,000.
We are seeking one partner to match us with a gift of $50,000.

In recognition of this leadership gift, the soccer field will be named in honor of the donor, with a large and permanent sign at the entrance. But more than a name, this gift provides something deeper: emotional safety, resilience, and hope for families living under constant pressure.

This is not just a soccer field.
It is where fear loosens its grip and childhood is protected.

Stand with a community that gives everything.
Help us save the spirit of our families.

Scope of Work

Site Preparation: Thorough cleaning and grading of the land to prepare for construction.

Ground Stabilization: Filling and compacting the soil with high-quality materials to ensure a stable foundation for the synthetic turf.

Fencing: Installation of a **4-meter high perimeter fence** around the entire field for safety and security.

Synthetic Turf: Laying of **premium artificial grass** for a durable, professional-quality playing surface.

Goals and Field Markings: Installation of regulation soccer goals and professional-grade field markings for gameplay.

Additional Infrastructure: All necessary works to complete the field, including drainage, edging, and finishing touches.

Total Project Cost: $100,000
This budget covers **full development, construction, installation, and finishing** of the soccer field to ensure it meets the highest standards.
